Training Methodology :

We do not believe in the traditional Chalkboard style of training, which is unidirectional and tends to dis-engage participants.

Our training programs combines Auditory (Listening), Visual (Seeing), Kinaesthetic(Learning through experience) that facilitates bi-directional interaction & practical learning.

We include role-play, simulations, activities, puzzles, games, brainteasers, critical thinking, case studies, anecdotes, activities, energizers, humour etc. to enrich the learning experience.

Our Services :

- Conducting Training Needs Analysis
- Training Content Preparation
- Creation and Delivery of Customized Training
- Post training assessment & Progress measurement
- Mystery Shopping and Mystery Audits + Reports

“They are not designed to walk. They fly. And when they fly, oh, how they fly, so graceful. They see from the sky what we never see”

ANONYMOUS

The Eagle is aware of the approaching storm and is the only bird that awaits to face the storm. It does not escape the storm but uses the wind to rise higher on the wind that ushers-in the storm. We at 'Eagle Hivision' are sensitive to the needs of our Clients and have a deep sense of awareness and commitment to meet our clients needs.

We believe that change is constant therefore our training programs anticipate future changes and integrate best practices with innovative, effective and break-through techniques that deliver outstanding results. We approach every training with a strong resolve and passion. Our programs are designed with well-structured and meticulous preparation desired to bring about changes in line with learning outcomes expected by our stakeholders. We cater to the unique needs of our clients by conducting a thorough 'TNA' and bring about Transformation and positive reinforcement in behaviour and output.

Our training's cover several categories including Junior, Mid-Level and Senior Management including Leaders, Officers, Junior & Administrative staff. Our eventful workshops are life changing and experiential with high impact while developing a sense of inner awakening and transformation. Participants time and again have testified to a positive change brought about in them personally and professionally after attending our training workshops.

We conduct a bouquet of training programs that includes: Creative Thinking & Innovation, Decision Making, Problem Solving, Time & Stress Management, Design Thinking, Customer Management, Sales Skills, Team building, Leadership, Communication, Emotional Intelligence and many more. We also provide training in the areas of Project management, Business analysis, Finance for Non-Finance Managers, Financial Planning, Induction, Product & Process training in Banking and Finance.

Our Team :

Our team includes professionals who are experts in their respective domain areas and have significant training experience with strong educational background.

We are committed to provide exceptional training to our participants and have developed a work force that explores their true potential, leading to personal effectiveness and productivity efficiencies
